## 2. Company History

In 2001, a team known as Kolskoot Oesspan had its inception by a lot of friends who shared the same passion of nature, hunting, shooting and guns. Under the guidance of Abelines Schoeman they had grown to one of the main teams in South Africa. All team members are professional business men in a variety of professions such as farmers, engineers, accountants, weapon merchants, weapon trainers, professional sportsmen and many more.

Through the past 16 years, we have built a reputation of handling every opportunity in a professional way and show respect for nature and the wildlife that we harvest. We have also built up a customer base where we have assisted with culling, that can bear witness

The fact that we all share the same passion results with us being one of the best names in the field.

In May of 2016, we came to a decision to formalize and register the team. Impulsive Farming Investments (Pty) Ltd was registered in preparation for future business. The company has two directors, Mr Roelof Johannes Barnard and Mr Abelines Jacobus Schoeman. The company name was later changed to Kolskoot Skietspan (Pty) Ltd to better describe the business.

In 2017 the directors decided to expand the company's capacity and negotiated with Zizwe Open Cast Mining (Pty) Ltd where they bought 100% shareholding from Kolskoot Skietspan (Pty) Ltd. Although Zizwe has 100% shareholding, Kolskoot retained operating directors. This enabled Kolskoot the capacity to enter into agreements with larger clients as evident from Zizwe Mining's profile. This further enables Kolskoot to continue to assist in the thinning and conservation of wildlife on a much larger scale.

### 3. People Involved

Although the company only has two directors, there are multiple individuals involved who add to the success of the business. All our members are highly trained shooters with exceptional skill and have a variety of weapons fit for any kind of game and wildlife. Some of the members in the group are also registered weapon trainers, professional hunters and meat inspectors so that we are able to offer an immediate solution in any situation.

Our team is purposefully larger than normal in order for us to be able to handle even the largest culling operation. Our team is also spread out across South Africa giving us the capability to work in any region ensuring continuous flow and short notice availability.

Our team members and their roles are as follows;

- Abelines Schoeman                      Director and Agri-Chemical Engineer
- Roelf Barnard                              Director and Professional Accountant
- Christiaan Joubert                        Technical Director – Zizwe Open Cast Mining (Pty) Ltd
- Stephanus Schoeman                      Operations Director, Meat examiner 4 months into his course
- JP (Paul) Grey                              Meat examiner
- AJ (Bines) Schoeman Snr
- Hennie Aggenbach
- Jan Coetzee

- AJ Herholdt Jnr
- Smith De Vries
- Daan Louw
- Andre Brink
- Rennie Brink
- Jeandre Brink
- JA Loubser

#### 4. Equipment

- Our vehicles are field ready and fully equipped and meet export standards.
- Our mobile processing racks enable us to speed up the cleaning of the carcasses and have them stored and cooled as soon as possible, thus ensuring better hygiene standards.

This also assists us in being able to manage any size of culling operation more efficiently and in minimal time.

- If necessary, we have access to Helicopters.
- We have highly experienced slaughtering teams. Most members of these teams have abattoir and Hazmat experience and understand the hygiene experience
- We also have our own cool truck and cold storage units to our disposal to facilitate the operations.

#### 5. Our Successes

We are one of the only teams that operate in the Western Cape and now work alongside other hunting organisations in assisting them with thinning out their problem animals.

the population of invasive rabbits and deer on Robbin Island. We have various regular clients in Limpopo, Namibia and Western Cape

## 6. Our Vision

Our vision is to become the most preferred, successful and respected culling team in and around South Africa.

## 7. Our Mission

- To deliver a professional, efficient service in the thinning of wildlife in a proposed area with safety as our top priority and minimal to no damage to the environment.
- Control population of wildlife to ensure no overpopulating takes place.
- Educate the public on the importance of culling to ensure the survival of wildlife.
- Reiterate the importance of handling firearms and the impact they have in society.

## 8. Our Values

- Ensure every Culling Operation is done professionally, with utmost respect for the environment and animals.
- Clear communication with all parties involved.
- Accountability to stakeholders

## 9. Our clients and stakeholders

We have various regular clients which have large farming concerns. We were sub contracted previously to do SANPARKS work through Tirhani Auctioneers. The involvement of ZIZWE mining now gives us the capacity to deal with larger clients. Some of ZIZWE's major clients are:

ZIZWE HAS NOW BECOME OUR 100% SHAREHOLDER
